CONTENTS

Special issue: Electric Forces and Molecular Behavior — A Collection of Invited Papers in Memorial Tribute to Professor Robert H. Cole

Foreword ix
Tributes xi
Memorial reflections xx
Memorial minute xxvii

Time domain reflectometry: bilinear corrections and extending the range of analysis beyond the quarter and half wavelength conditions
J.G. Berberian (Philadelphia, PA, USA) 1
Biology, physics, and fields: metaphor or reality?
G.R. Welch (New Orleans, LA, USA) 19
Cole–Cole plots as they should be
J.G. Powles (Canterbury, UK) 35
Cole–Cole plots: methods of unbiased parameter estimation
S. Havriliak Jr., (Bristol, PA, USA) and S.J. Havriliak (Huntingdon Valley, PA, USA) 49
A description of resonance in dielectrics through the Argand diagram
J.I. Casaubon (Buenos Aires, Argentina), V. Naumenko (Minsk, Belarus) and M. Baron (Buenos Aires, Argentina) 77
Dielectric spectroscopy of aqueous solutions. Hydration phenomena and hydrogen-bonded networks
U. Kaatze (Göttingen, Germany) 95
Dielectric relaxation of a DNA fragment
R.B. Dowd and W.E. Vaughan (Madison, WI, USA) 117
Dielectric behaviour of proteins
A.P. Demchenko (Kiev, Ukraine) 127
On the evolution of relaxation processes during the formation of a macromolecule
M. Cassettari, G. Salvetti, E. Tombari, S. Veronesi (Pisa, Italy) and G.P. Johari (Hamilton, Ont., Canada) 141
Phenomenology of addition polymerization
G.P. Johari (Hamilton, Ont., Canada) 153
Terminal-mode dielectric relaxation in the ternary system poly(ε-caprolactone)/poly(4-chlorostyrene)/dioxane
B. Baysal and W.H. Stockmayer (Hanover, NH, USA) 175
Application of Krylov–Bogoliubov-Mitropolsky methods of relaxation processes
J. McConnell (Dublin, Ireland) 183
Cooperative dynamics in relaxation: a coupling model perspective
K.L. Ngai and R.W. Rendell (Washington, DC, USA) 199
Open versus closed systems in static nonlinear dielectric theory
R.L. Fulton (Tallahassee, FL, USA) 215
Dielectric and ionic processes in sodium trisilicate glass
P.N. Huang and G.P. Johari (Hamilton, Ont., Canada) 225
The effect of ethanol on the solubility of dicalcium phosphate dihydrate in the system $Ca(OH)_2$–H_3PO_4–H_2O at 37 °C
M.S. Tung and T.J. O'Farrell (Gaithersburg, MD, USA) 237
Dielectric relaxation in hydrogenated erbium doped calcium fluoride
J.S. Dryden and H.K. Welsh (Lindfield, Australia) 245
Relationships between the dielectric and structural properties of supercooled LiCl:RH_2O solutions
Y.Z. Wei and S. Sridhar (Boston, MA, USA) 259

Far IR spectra and heat capacities for propylene carbonate and propylene glycol, and the connection to the dielectric response function
C.A. Angell, L. Boehm, M. Oguni and D.L. Smith (W. Lafayette, IN, USA and Tempe, AZ, USA) 275
A thermal pseudo "hysteresis" effect in the dielectric behaviour of nitrobenzene–chlorobenzene mixtures
G. Vicq and G. Delbos (Talence, France) 287
The relationship between the Poley absorption and fractional power law relaxation in the cluster model
L.A. Dissado and J.M. Alison (London, UK) 295
Infrared studies of hydrogen-bonding of methanol in binary mixtures with acetonitrile
S.S. Farwaneh, J. Yarwood (Durham, UK), I. Cabaco and M. Besnard (Talence, France) 317
Influence of molecular anisotropies in the excess dielectric properties of binary liquid systems
A.H. Buep, M.B. Rebollo Paz and M. Baron (Buenos Aires, Argentina) 333
Chemical relaxations of ionically conducting glasses
G.D. Chryssikos and E.I. Kamitsos (Athens, Greece) 349
Estimates of electron range and ion mobility in cholesteryl oleyl carbonate
P.K. Watson (Webster, NY, USA) 359
Interfacial polarization: reflections and experiments
J.E. Anderson (Dearborn, MI, USA) 379
Broadband complex permittivity measurements of liquid crystals, microemulsions and polar liquids by time domain reflectometry
T.K. Bose and R. Nozaki (Trois-Rivières, Québec, Canada) 399
Prebreakdown events in dielectric fluids
E.O. Forster (Newark, NJ, USA) 419

Announcement 433
